NCR Atleos Corporation Reports Strong Second Quarter 2024 Results

ATLANTA, August 13, 2024 - NCR Atleos Corporation (NYSE: NATL) ("Atleos") reported financial results today for the three months ended June 30, 2024. Second quarter results and other recent highlights include:

- **Strong second quarter financial results were at or above the high-end of guidance ranges**
- **Revenue grew 4% year-over-year to \$1.08 billion; Recurring revenue grew 9% to \$793 million**
- **GAAP net income of \$29 million; Adjusted EBITDA of \$193 million**
- **Operating cash flow of \$9 million; Adjusted free cash flow ⁽¹⁾ of \$16 million**
- **GAAP fully diluted income per share of \$0.39; Non-GAAP fully diluted earnings per share of \$0.81**
- **Company reaffirms and narrows ranges for full year 2024 targets; Issues third quarter guidance**

"The second quarter capped a highly successful first half of the year for NCR Atleos. We delivered strong financial results that were at the high-end or above our guidance ranges, continued to elevate execution across our businesses, and advanced our strategic initiatives," said Tim Oliver, President and Chief Executive Officer. "Our intensified focus on product and service quality, coupled with our differentiated ATM outsourcing capabilities drove increased interest in our solutions that enable financial institutions and retail partners to offer more efficient, high quality, and flexible banking experiences to consumers." Mr. Oliver continued, "Given the strong first-half financial results, a robust sales pipeline, and building commercial momentum, we believe the Company is on track to achieve its goals this year and we reaffirm and narrow consolidated guidance ranges for full year 2024 targets."

Second Quarter 2024 Operating Results

The core business segments continue to deliver strong results:

- Second quarter revenue was \$1.08 billion, including \$793 million of recurring revenue, compared to \$1.04 billion and \$730 million, respectively, in the prior year period.
- Second quarter gross profit was \$253 million with a gross profit rate of 23.4% on a GAAP basis, compared to \$247 million and 23.8%, respectively, in the prior year period. Second quarter adjusted gross profit (non-GAAP) was \$276 million with an adjusted gross profit rate of 25.5%, compared to \$270 million and 26.0%, respectively, in the prior year period.
- Second quarter income from operations was \$107 million on a GAAP basis, compared to \$79 million in the prior year period. Second quarter adjusted income from operations (non-GAAP) was \$152 million compared to \$161 million in the prior year period.
- Second quarter net income attributable to Atleos was \$29 million on a GAAP basis, compared to net income attributable to Atleos of \$53 million in the prior year period.
- Second quarter Adjusted EBITDA was \$193 million compared to \$198 million in the prior year period.

⁽¹⁾ Adjusted free cash flow-unrestricted, as defined in the section entitled "Non-GAAP Financial Measures."

⁽¹⁾ Other represents certain other immaterial business operations, including commerce-related operations in countries that Voyix exited that are aligned to Atleos, that do not represent a reportable segment. For periods after the separation from Voyix, Other also includes revenues from commercial agreements with Voyix.

⁽²⁾ Corporate includes income and expenses related to corporate functions and, for periods prior to the separation from Voyix, certain allocations from Voyix that were not specifically attributable to an individual reportable segment.

Notes to Investors

On October 16, 2023, NCR Atleos Corporation (“Atleos”, the “Company”, “we” or “us”) became a standalone publicly traded company, and its financial statements are now presented on a consolidated basis. Prior to the separation from NCR Voyix Corporation (“NCR” or “Voyix”), the Company’s historical combined financial statements were prepared on a standalone carve-out basis and were derived from Voyix’s consolidated financial statements and accounting records. Therefore, financial results for the three and six months ended June 30, 2024 and 2023 may not be meaningfully comparable.

In this release, we use certain non-GAAP measures. These non-GAAP measures include “Adjusted EBITDA,” and others with the words “non-GAAP” or “adjusted” in their titles. These non-GAAP measures are listed, described and reconciled to their most directly comparable GAAP measures under the heading “Non-GAAP Financial Measures” later in this release.

With respect to our Adjusted EBITDA, adjusted free cash flow-unrestricted and non-GAAP diluted earnings per share guidance, we do not provide a reconciliation of the respective GAAP measures because we are not able to predict with reasonable certainty the reconciling items that may affect the GAAP net income, GAAP cash flow from operating activities and GAAP diluted earnings per share without unreasonable effort. The reconciling items are primarily the future impact of special tax items, capital structure transactions, restructuring, pension mark-to-market transactions, acquisitions or divestitures, or other events. These reconciling items are uncertain, depend on various factors and could significantly impact, either individually or in the aggregate, the GAAP measures. Refer to the heading “Non-GAAP Financial Measures” for additional information regarding our use of non-GAAP financial measures.

Cautionary Statements

This release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the "Act"). Forward-looking statements use words such as "expect," "anticipate," "outlook," "intend," "plan," "confident," "believe," "will," "should," "would," "potential," "positioning," "proposed," "planned," "objective," "likely," "could," "may," and words of similar meaning, as well as other words or

expressions referencing future events, conditions or circumstances. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Act. Statements that describe or relate to Atleos' plans, goals, intentions, strategies, or financial outlook, and statements that do not relate to historical or current fact, are examples of forward-looking statements. Examples of forward-looking statements in this release include, without limitation, statements regarding: our expectations of demand for our solutions and execution and the impact thereof on our financial results and our intention to focus our resources on meeting our ATM customers' needs and extending our leadership position in digital-to-physical transactions following the spin-off. Forward-looking statements are based on our current beliefs, expectations and assumptions, which may not prove to be accurate, and involve a number of known and unknown risks and uncertainties, many of which are out of Atleos' control. Forward-looking statements are not guarantees of future performance, and there are a number of important factors that could cause actual outcomes and results to differ materially from the results contemplated by such forward-looking statements, including those factors relating to:

- **Strategy and Technology:** transforming our business model, development and introduction of new solutions; competition in the technology industry, integration of acquisitions and management of alliance activities; our multinational operations;
- **Business Operations:** domestic and global economic and credit conditions; risks and uncertainties from the payments-related business and industry; disruptions in our data center hosting and public cloud facilities; retention and attraction of key employees; defects, errors, installation difficulties or development delays; failure of third-party suppliers; a major natural disaster or catastrophic event, including the impact of pandemics and geopolitical and macroeconomic challenges; environmental exposures from historical and ongoing manufacturing activities and climate change;
- **Data Privacy & Security:** impact of data protection, cybersecurity and data privacy including any related issues;
- **Finance and Accounting:** our level of indebtedness; the terms governing our indebtedness; incurrence of additional debt or similar liabilities or obligations; access or renewal of financing sources; our cash flow sufficiency to service our indebtedness; interest rate risks; the terms governing our trade receivables facility; the impact of certain changes in control relating to acceleration of our future indebtedness; our obligations under other future financing arrangements; or required repurchase of any notes we may issue; any lowering or withdrawal of the ratings assigned to our future debt securities by rating agencies; our pension liabilities and write down of the value of certain significant assets;
- **Law and Compliance:** allegations or claims by third parties that our products or services infringe on intellectual property rights of others, including claims against our customers and claims by our customers to defend and indemnify them with respect to such claims; protection of our intellectual property; changes to our tax rates and additional income tax liabilities; uncertainties regarding regulations; lawsuits and other related matters; changes to cryptocurrency regulations;
- **Governance:** actions or proposals from stockholders that do not align with our business strategies or the interests of our other stockholders; and
- **Separation:** the failure of Atleos to achieve some or all of the expected strategic benefits, synergies or opportunities expected from the spin-off; that Atleos may incur material costs and expenses as a result of the spin-off; that Atleos has limited history operating as an independent, publicly traded company, and Atleos' historical and pro forma financial information is not necessarily representative of the results that it would have achieved as a separate, publicly traded company and therefore may not be a reliable indicator of its future results; Atleos' obligation to indemnify NCR pursuant to the agreements entered into in connection with the spin-off (including with respect to material taxes) and the risk NCR may not fulfill any obligations to indemnify Atleos under such agreements; that under applicable tax law, Atleos may be liable for certain tax liabilities of NCR following the spin-off if NCR were to fail to pay such taxes; that agreements binding on Atleos restrict it from taking certain actions after the distribution that could adversely impact the intended U.S. federal income tax treatment of the distribution and related transactions; potential liabilities arising out of state and federal fraudulent conveyance laws; the fact that Atleos may receive worse commercial terms from third-parties for services it presently receives from NCR; that after the spin-off, certain of Atleos' executive officers and directors may have actual or potential conflicts of interest because of their previous positions at NCR; potential difficulties in maintaining relationships with key personnel; that Atleos will not be able to rely on the earnings, assets or cash flow of NCR and NCR will not provide funds to finance Atleos' working capital or other cash requirements.

Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those set forth in the forward-looking statements. Additional information concerning these and other factors can be found in the Company's filings with the U.S. Securities and Exchange Commission, including the Company's annual report on Form 10-K, quarterly reports on Form 10-Q, and current reports on Form 8-K. Any forward-looking statement speaks only as of the date on which it is made. The Company does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Non-GAAP Financial Measures

Non-GAAP Financial Measures. While Atleos reports its results in accordance with Generally Accepted Accounting Principles in the United States, or GAAP, in this release Atleos also uses the non-GAAP measures listed and described below.

Adjusted Gross Profit (Non-GAAP), Adjusted Gross Profit Rate (Non-GAAP), Adjusted Income from Operations (Non-GAAP), Non-GAAP Diluted Earnings per Share. Atleos' Adjusted Gross Profit (non-GAAP), Adjusted Gross Profit Rate (non-GAAP), Adjusted Income from Operations (non-GAAP), and Non-GAAP Diluted Earnings per Share are determined by excluding, as applicable, acquisition-related costs; pension mark-to-market adjustments, pension settlements, pension curtailments and pension special termination benefits; separation-related costs; amortization of acquisition-related intangibles; stock-based compensation expense; transformation and restructuring charges (which includes integration, severance and other exit and disposal costs); and other special (expense) income items from Atleos' GAAP gross profit, expenses, income from operations, interest and other income (expense), income tax expense, effective income tax rate, net income (loss) attributable to Atleos, and earnings per share, respectively. Due to the nature of these special items, Atleos' management uses these non-GAAP measures to evaluate year-over-year operating performance. Atleos believes these measures are useful for investors because they provide a more complete understanding of Atleos' underlying operational performance, as well as consistency and comparability with Atleos' past reports of financial results.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA). Atleos' management uses the non-GAAP measure Adjusted EBITDA because it provides useful information to investors as an indicator of performance of the Company's ongoing business operations. Atleos determines Adjusted EBITDA based on GAAP Net income (loss) attributable to Atleos plus interest expense, net; plus income tax expense (benefit); plus depreciation and amortization; plus acquisition-related costs; plus pension mark-to-market adjustments, pension settlements, pension curtailments and pension special termination benefits; plus separation-related costs; plus transformation and restructuring charges (which includes integration, severance and other exit and disposal costs); plus stock-based compensation expense; plus other special (expense) income items. These adjustments are considered non-operational or non-recurring in nature and are excluded from the Adjusted EBITDA metric utilized by our chief operating decision maker ("CODM") in evaluating segment performance and are separately delineated to reconcile back to total reported income attributable to Atleos. This format is useful to investors because it allows analysis and comparability of operating trends. It also includes the same information that is used by Atleos management to make decisions regarding our segments and to assess our financial performance. Refer to the table below for the reconciliations of Net income (loss) attributable to Atleos (GAAP) to Adjusted EBITDA (non-GAAP).

Adjusted EBITDA margin is calculated based on Adjusted EBITDA as a percentage of total revenue. Adjusted EBITDA margin by segment is calculated based on segment Adjusted EBITDA divided by the related component of revenue. This measure is used by Atleos' management for the reasons referenced above.

Adjusted free cash flow-unrestricted. Atleos defines Adjusted free cash flow-unrestricted as net cash provided by operating activities less capital expenditures for property, plant and equipment, less additions to capitalized software, plus/minus the change in restricted cash settlement activity, plus/minus net reductions or reinvestment in the trade receivables facility established in the fourth quarter of 2023 due to fluctuations in the outstanding balance of receivables sold, plus/minus financing payments/receipts of owned ATM capital expenditures, and plus pension contributions and settlements. Restricted cash settlement activity represents the net change in amounts collected on behalf of, but not yet remitted to, certain of the Company's merchant customers or third-party service providers that are pledged for a particular use or restricted to support these obligations. These amounts can fluctuate significantly period to period based on the number of days for which settlement to the merchant has not yet occurred or day of the week on which a reporting period ends. We believe Adjusted free cash flow-unrestricted information is useful for investors because it indicates the amount of cash available after these adjustments for, among other things, investments in Atleos' existing businesses, strategic acquisitions, and repayment of debt obligations. Adjusted free cash flow-unrestricted does not represent the residual cash flow available, since there may be other non-discretionary expenditures that are not deducted from the measure. Adjusted free cash flow-unrestricted does not have a uniform definition under GAAP, and therefore Atleos' definition may differ from other companies' definitions of this measure. This non-GAAP measure should not be considered a substitute for, or superior to, cash flows from operating activities under GAAP.

Atleos' definitions and calculations of these non-GAAP measures may differ from similarly-titled measures reported by other companies and cannot, therefore, be compared with similarly-titled measures of other companies. These non-GAAP measures should not be considered as substitutes for, or superior to, results determined in accordance with GAAP.

Use of Certain Terms

Recurring revenue. All revenue streams from contracts where there is a predictable revenue pattern that will occur at regular intervals with a relatively high degree of certainty. This includes hardware and software maintenance revenue, processing revenue, interchange and network revenue, Bitcoin-related revenue, and certain professional services arrangements, as well as term-based software license arrangements that include customer termination rights.

⁽¹⁾ On October 16, 2023, the date of Separation, 70.6 million shares of Atleos' Common Stock, par value \$0.01 per share, were distributed to Voyix shareholders of record as of October 2, 2023, the Record Date. This share amount is utilized for the calculation of basic and diluted earnings per share for all periods presented prior to the Separation. For the three months ended June 30, 2023, these shares are treated as issued and outstanding for purposes of calculating historical earnings per share. For periods prior to the Separation, it is assumed that there are no dilutive equity instruments as there were no equity awards of Atleos outstanding prior to the Separation.

FORWARD-LOOKING STATEMENTS

NCR Atleos Corporation ("NCR Atleos," "Atleos" or the "Company") cautions that comments made during this presentation and in these materials contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the "Act"). Forward-looking statements use words such as "estimate," "expect," "target," "anticipate," "outlook," "intend," "plan," "confident," "believe," "will," "would," "potential," "positioned," "may," and words of similar meaning, as well as other words or expressions referencing future events, conditions or circumstances. We intend for these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Act. Statements that describe or relate to the Company's plans, targets, goals, intentions, strategies, or financial outlook, and statements that do not relate to historical or current fact, are examples of forward-looking statements. Examples of forward-looking statements in these materials include, without limitation, statements regarding the future commercial or financial performance of the Company following the separation from NCR Voyix Corporation ("Voyix" or "NCR Voyix"), and value creation and ability to innovate and drive growth generally as a result of such transaction; the expected financial performance of the Company for 2024; the Company's net leverage ratio targets for year-end 2024 and long-term; our expected areas of focus and strategy to drive growth and profitability and create long-term stockholder value, including key performance indicator targets and expectations for 2024; the Company's focus on advancing strategic growth initiatives and transforming the Company into a software-led ATM as a service company with a higher mix of recurring revenue streams, including the Company's focus on driving efficiencies and standardizing cloud-native service offerings; statements regarding redeployment priorities, and future capital allocation priorities and our expected free cash flow for 2024; and our expectations of NCR Atleos' ability to deliver increased value to customers and stockholders.

Forward-looking statements are based on our current beliefs, expectations and assumptions, which may not prove to be accurate, and involve a number of known and unknown risks and uncertainties, many of which are out of the Company's control, including the failure of NCR Atleos to achieve some or all of the expected strategic benefits or opportunities expected from the spin-off, that NCR Atleos may incur material costs and expenses as a result of the spin-off, that NCR Atleos has no pre-spin operating history as an independent, publicly traded company, and NCR Atleos' historical and pro forma financial information is not necessarily representative of the results that it would have achieved as a separate, publicly traded company and therefore may not be a reliable indicator of its future results, NCR Atleos' obligation to indemnify NCR Voyix pursuant to the agreements entered into connection with the spin-off (including with respect to material taxes) and the risk NCR Voyix may not fulfill any obligations to indemnify NCR Atleos under such agreements, that under applicable tax law, NCR Atleos may be liable for certain tax liabilities of NCR Voyix following the spin-off if NCR Voyix were to fail to pay such taxes, that agreements binding on NCR Atleos restrict it from taking certain actions after the distribution that could adversely impact the intended U.S. federal income tax treatment of the distribution and related transactions, potential liabilities arising out of state and federal fraudulent conveyance laws, the fact that NCR Atleos may receive worse commercial terms from third-parties for services it presently receives from NCR Voyix, that after the spin-off, certain of NCR Atleos' executive officers and directors may have actual or potential conflicts of interest because of their previous positions at NCR Voyix, potential difficulties in maintaining relationships with key personnel, NCR Atleos will not be able to rely on the earnings, assets or cash flow of NCR Voyix and NCR Voyix will not provide funds to finance NCR Atleos' working capital or other cash requirements. Forward-looking statements are not guarantees of future performance, and there are a number of important factors that could cause actual outcomes and results to differ materially from the results contemplated by such forward-looking statements. As you read and consider this presentation, you should understand that these statements are not guarantees of performance or results. Although the Company believes that assumptions underlying the forward-looking statements contained herein are reasonable, should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, any of these statements included herein may prove to be inaccurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that the results or conditions described in such statements or our objectives and plans will be achieved. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. New risk factors and uncertainties may emerge from time to time, and it is not possible for management to predict all risk factors and uncertainties. Additional information concerning these and other factors can be found in the Company's filings with the U.S. Securities and Exchange Commission ("SEC"), including the Company's registration statement on Form 10 and amendments thereto, the final information statement, included as an exhibit to the Company's current report on Form 8-K filed with the SEC on August 15, 2023, the Company's annual report on Form 10-K filed with the SEC on March 26, 2024, quarterly reports on Form 10-Q and current reports on Form 8-K. These materials are dated August 15, 2024, and Atleos does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

NOTES TO INVESTORS

NON-GAAP MEASURES. While Atleos reports its results in accordance with generally accepted accounting principles in the United States, or GAAP, comments made during this conference call and in these materials will include or make reference to certain "non-GAAP" measures, including: adjusted gross margin rate (non-GAAP); diluted earnings per share (non-GAAP); adjusted free cash flow-unrestricted; adjusted gross margin (non-GAAP); net debt; adjusted EBITDA; adjusted EBITDA growth; adjusted EBITDA margin; the ratio of net debt to adjusted EBITDA or Net Leverage Ratio; adjusted income from operations (non-GAAP); adjusted interest and other expense (non-GAAP); adjusted income tax expense (non-GAAP); effective income tax rate (non-GAAP); and adjusted net income attributable to Atleos (non-GAAP). These measures are included to provide additional useful information regarding Atleos' financial results, and are not a substitute for their comparable GAAP measures. Explanations of these non-GAAP measures, and reconciliations of these non-GAAP measures to their directly comparable GAAP measures, are included in the accompanying "Supplementary Materials" and are available on the Investor Relations page of Atleos' website at www.ncratleos.com. Descriptions of many of these non-GAAP measures are also included in Atleos' SEC reports.

We do not intend our use or display of other companies' trademarks, service marks, copyrights or trade names to imply a relationship with, or endorsement or sponsorship of us by, any other companies.

USE OF CERTAIN TERMS. As used in these materials:

- (i) the term "recurring revenue" includes all revenue streams from contracts where there is a predictable revenue pattern that will occur at regular intervals with a relatively high degree of certainty. This includes hardware and software maintenance revenue, processing revenue, interchange and network revenue, Bitcoin-related revenue, and certain professional services arrangements, as well as term-based software license arrangements that include customer termination rights.
- (ii) the term "annual recurring revenue" or "ARR" is recurring revenue, excluding software license sold as a subscription, for the last three months times four, plus the rolling four quarters for term-based software license arrangements that include customer termination rights.
- (iii) the term "LTM" means last twelve months.
- (iv) the term "ARPU" means average revenue per unit.
- (v) the term "ATMaaS" means ATM as a Service, our turnkey, end-to-end ATM platform solution.

These presentation materials and the associated remarks made during this conference call are integrally related and are intended to be presented and understood together. Websites referenced in this presentation are not incorporated by reference into the presentation.

Product Results Summary

\$ in millions

- Our strategy is focused on generating incremental revenue and profit by facilitating efficient and convenient automated banking services
- We achieve this by growing recurring, higher margin revenue streams in services, transactions, and software that can be scaled up across our installed base of hardware
- In the big picture we are agonistic about where & how we capture incremental revenue and profit – ATM as a Service or through Utility Banking
- Note: For this graphic Q1 2024 is a base level from which the Company plans to build out a trailing five quarter view

Full Year 2024 Guidance Ranges Reaffirmed & Narrowed

SUPPLEMENTARY MATERIALS

Certain Terms & Key Performance Indicators (KPIs)

Recurring revenue - all revenue streams from contracts where there is a predictable revenue pattern that will occur at regular intervals with a relatively high degree of certainty. This includes hardware and software maintenance revenue, processing revenue, interchange and network revenue, Bitcoin-related revenue, and certain professional services arrangements, as well as term-based software license arrangements that include customer termination rights.

Annual recurring revenue or "ARR" - recurring revenue, excluding software licenses sold as a subscription, for the last three months times four, plus the rolling four quarters for term-based software license arrangements that include customer termination rights.

LTM - Last twelve months

ARPU - average revenue per unit

ATM - Automated teller machine

ATM as a Service ("ATMaaS") - our turnkey, end-to-end ATM platform solution, whereby we own the ATM and provide comprehensive managed services solutions to financial institutions

Liquidity - Borrowing capacity under our senior secured Revolving Credit Facility plus unrestricted cash and cash equivalents

Hardware revenue - revenue related to ATM and other hardware sales

Services revenue - revenue related to hardware and software maintenance, professional services, and ATMaaS

Software revenue - revenue related to software license, software maintenance and professional installation services

Transactional revenue - revenue related to payment transaction processing services, interchange and other network revenue as well as Bitcoin-related revenue

NON-GAAP MEASURES

While Atleos reports its results in accordance with generally accepted accounting principles (GAAP) in the United States, comments made during this conference call and in these materials will include non-GAAP measures. These measures are included to provide additional useful information regarding Atleos' financial results, and are not a substitute for their comparable GAAP measures.

Non-GAAP Diluted Earnings Per Share (EPS), Adjusted Gross Margin (non-GAAP), Adjusted Gross Margin Rate (non-GAAP), Adjusted Operating Expenses (non-GAAP), Adjusted Income from Operations (non-GAAP), Adjusted Operating Margin Rate (non-GAAP), Adjusted Interest and Other (Expense) (non-GAAP), Adjusted Income Tax Expense (non-GAAP), Adjusted Effective Income Tax Rate (non-GAAP), and Adjusted Net Income from Continuing Operations Attributable to Atleos (non-GAAP). Atleos' non-GAAP diluted EPS, adjusted gross margin (non-GAAP), adjusted gross margin rate (non-GAAP), adjusted operating expenses (non-GAAP), operating income (non-GAAP), operating margin rate (non-GAAP), interest and other (expense) (non-GAAP), income tax expense (non-GAAP), adjusted effective income tax rate (non-GAAP), and adjusted net income from continuing operations attributable to Atleos (non-GAAP) are determined by excluding, as applicable, pension mark-to-market adjustments, pension settlements, pension curtailments and pension special termination benefits, as well as other special items, including separation-related costs, amortization of acquisition related intangibles, stock-based compensation expense, and transformation and restructuring activities, from Atleos' GAAP earnings per share, gross margin, gross margin rate, expenses, income from operations, operating margin rate, interest and other income (expense), income tax expense, effective income tax rate and net income from continuing operations attributable to Atleos, respectively. Due to the nature of these special items, Atleos' management uses these non-GAAP measures to evaluate year-over-year operating performance. Atleos believes these measures are useful for investors because they provide a more complete understanding of Atleos' underlying operational performance, as well as consistency and comparability with Atleos' past reports of financial results.

Adjusted Free Cash Flow-Unrestricted (FCF). Atleos defines adjusted free cash flow-unrestricted as net cash provided by (used in) operating activities less capital expenditures for property, plant and equipment, less additions to capitalized software, plus/minus the change in restricted cash settlement activity, plus/minus net reductions or reinvestment in the trade receivables facility established in the fourth quarter of 2023 due to fluctuations in the outstanding balance of receivables sold, plus/minus financing payments/receipts of owned ATM capital expenditures, and plus pension contributions and pension settlements. Restricted cash settlement activity represents the net change in amounts collected on behalf of, but not yet remitted to, certain of the Company's merchant customers or third-party service providers that are pledged for a particular use or restricted to support these obligations. These amounts can fluctuate significantly period to period based on the number of days for which settlement to the merchant has not yet occurred or day of the week on which a reporting period ends. Atleos' management uses adjusted free cash flow-unrestricted to assess the financial performance of the Company and believes it is useful for investors because it relates the operating cash flow of the Company to the capital that is spent to continue and improve business operations. In particular, adjusted free cash flow-unrestricted indicates the amount of cash generated after capital expenditures, which can be used for, among other things, investment in the Company's existing businesses, strategic acquisitions, strengthening the Company's balance sheet, repurchase of Company stock and repayment of the Company's debt obligations. Adjusted free cash flow-unrestricted does not represent the residual cash flow available for discretionary expenditures since there may be other non-discretionary expenditures that are not deducted from the measure. Adjusted free cash flow-unrestricted does not have uniform definitions under GAAP and, therefore, Atleos' definitions may differ from other companies' definitions of these measures.

NON-GAAP MEASURES

Net Debt. Atleos determines Net Debt based on its total debt less cash and cash equivalents, with total debt being defined as total short-term borrowings plus total long-term debt as presented on the face of the Condensed Consolidated Balance Sheets. Atleos believes that Net Debt provides useful information to investors because Atleos' management reviews Net Debt as part of its management of overall liquidity, financial flexibility, capital structure and leverage. In addition, certain debt rating agencies, creditors and credit analysts monitor Atleos' Net Debt as part of their assessments of Atleos' business.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA). Atleos determines Adjusted EBITDA based on GAAP Net income attributable to Atleos plus interest expense, net; plus income tax expense (benefit); plus depreciation and amortization; plus acquisition-related costs; plus pension mark-to-market adjustments, pension settlements, pension curtailments and pension special termination benefits; plus separation-related costs; plus transformation and restructuring charges (which includes integration, severance and other exit and disposal costs); plus stock-based compensation expense; plus other special (expense) income items. These adjustments are considered non-operational or non-recurring in nature and are excluded from the Adjusted EBITDA metric utilized by our chief operating decision maker ("CODM") in evaluating segment performance and are separately delineated to reconcile back to total reported income attributable to Atleos. Atleos uses Adjusted EBITDA to manage and measure the performance of its business segments. Atleos also uses Adjusted EBITDA to manage and determine the effectiveness of its business managers and as a basis for incentive compensation. Atleos believes that Adjusted EBITDA provides useful information to investors because it is an indicator of the strength and performance of the Company's ongoing business operations, including its ability to fund discretionary spending such as capital expenditures, strategic acquisitions and other investments.

Adjusted EBITDA margin is calculated based on Adjusted EBITDA as a percentage of total revenue.

Net Leverage Ratio. Atleos believes that its ratio of Net Debt to Adjusted EBITDA, or Net Leverage Ratio, provides useful information to investors because it is an indicator of the Company's ability to meet its future financial obligations. In addition, the Net Debt to Adjusted EBITDA ratio is a measure frequently used by investors and credit rating agencies. The Net Debt to Adjusted EBITDA ratio is calculated by dividing Net Debt by trailing twelve-month Adjusted EBITDA.

NON-GAAP MEASURES

With respect to our Adjusted EBITDA, adjusted free cash flow-unrestricted and non-GAAP diluted earnings per share forward-looking guidance, we do not provide a reconciliation of the respective GAAP measures because we are not able to predict with reasonable certainty the reconciling items that may affect the GAAP net income, GAAP cash flow from operating activities and GAAP diluted earnings per share without unreasonable effort. The reconciling items are primarily the future impact of special tax items, capital structure transactions, restructuring, pension mark-to-market transactions, acquisitions or divestitures, or other events. These reconciling items are uncertain, depend on various factors and could significantly impact, either individually or in the aggregate, the GAAP measures.

Atleos management's definitions and calculations of these non-GAAP measures may differ from similarly-titled measures reported by other companies and cannot, therefore, be compared with similarly-titled measures of other companies. These non-GAAP measures should not be considered as substitutes for, or superior to, results determined in accordance with GAAP. These non-GAAP measures are reconciled to their corresponding GAAP measures in the following slides and elsewhere in these materials. These reconciliations and other information regarding these non-GAAP measures are also available on the Investor Relations page of Atleos' website at www.ncratleos.com.

(1) On October 16, 2023, the date of Separation, 70.6 million shares of Atleos' Common Stock, par value \$0.01 per share, were distributed to Voyix shareholders of record as of October 2, 2023, the Record Date. This share amount is utilized for the calculation of basic and diluted earnings per share for all periods presented prior to the Separation. For the three months ended June 30, 2023, these shares are treated as issued and outstanding for purposes of calculating historical earnings per share. For periods prior to the Separation, it is assumed that there are no dilutive equity instruments as there were no equity awards of Atleos outstanding prior to the Separation.

* Figures presented in this table are calculated in accordance with U.S. GAAP. In accordance with ASC 280, Segment Reporting, the Company uses Adjusted EBITDA to assess segment performance and allocate the Company resources. No other measures, including income from operations, are considered by management in assessing performance nor does the chief operating decision maker use income from operations when assessing performance. Therefore, Adjusted EBITDA is considered the Company's GAAP measure of segment profit or loss. The supplementary segment-level information included on this slide is provided for modeling purposes only.

(1) Other represents certain other immaterial business operations, including commerce-related operations in countries that Voyix exited that are aligned to Atleos, that do not represent a reportable segment. For periods after the separation from Voyix, Other also includes revenues from commercial agreements with Voyix.

(2) Corporate includes income and expenses related to corporate functions that are not specifically attributable to an individual reportable segment.

(3) Selling, general and administrative expenses is presented as "SG&A" and research and development expenses is presented as "R&D" above.
