Paul J. Campbell  
Executive Vice President and Chief Financial Officer

Date: January 29, 2024

## Notes to Investors

Prior to our spin-off transaction from NCR Voyix Corporation, formerly known as NCR Corporation (“Voyix” or “NCR”), NCR Atleos Corporation (“Atleos”, “we”, “us”, or the “Company”) historically operated as a part of NCR. While prior to preparation of our financial statements in connection with the spin-off, Atleos did not historically prepare stand-alone financial statements, the accompanying results have been derived from NCR’s historical accounting records and are presented on a stand-alone basis, as if Atleos’ operations had been conducted independently from NCR. The information in this document includes segment level financial information to facilitate a better understanding of how the Company may have performed as an independent company and to facilitate financial modeling and analysis. All dollar amounts are displayed in millions.

In this release, we use certain non-GAAP measures. These non-GAAP measures include “Adjusted EBITDA,” and others with the words “non-GAAP” in their titles. These non-GAAP measures are listed, described and reconciled to their most directly comparable GAAP measures under the heading “Non-GAAP Financial Measures” later in this release.

(1) "Other adjustment" reflects the revenue attributable to the Company's operations in Russia that were excluded from management's measure of revenue due to our decision to suspend sales to Russia in the first quarter of 2022 and the anticipated orderly wind down of our operations in Russia. Refer to the section entitled "Non-GAAP Financial Measures" for additional information.

(2) "Corporate" includes income and expenses related to corporate functions and certain allocations from NCR that are not specifically attributable to an individual reportable segment.

(3) Selling, general and administrative expenses is presented as "SG&A" and research and development expenses is presented as "R&D" above.

**Non-GAAP Financial Measures**

While Atleos reports its results in accordance with Generally Accepted Accounting Principles in the United States, or GAAP, in this document Atleos also uses the non-GAAP measures listed and described below.

*Adjusted Cost of Products (non-GAAP), Adjusted Cost of Services (Non-GAAP), Adjusted SG&A and R&D Expenses (non-GAAP), Adjusted Income from Operations (non-GAAP).* Atleos' adjusted cost of products (non-GAAP), adjusted cost of services (non-GAAP), adjusted selling general and administrative ("SG&A") and research and development ("R&D") expenses (non-GAAP), and adjusted income from operations (non-GAAP) are determined by excluding, as applicable, acquisition-related costs; pension mark-to-market adjustments, pension settlements, pension curtailments and pension special termination benefits; separation-related costs; amortization of acquisition related intangibles; stock-based compensation expense; transformation and restructuring charges (which includes integration, severance and other exit and disposal costs); and other (expense) income items from Atleos' GAAP expenses and income from operations, respectively. Due to the non-recurring or non-operational nature of these pension and other special items, Atleos' management uses these non-GAAP measures to evaluate year-over-year operating performance. Atleos believes these measures are useful for investors because they provide a more complete understanding of Atleos' underlying operational performance, as well as consistency and comparability with Atleos' past reports of financial results.

*Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA).* Atleos' management uses the non-GAAP measure Adjusted EBITDA because it provides useful information to investors as an indicator of performance of the Company's ongoing business operations. Atleos determines Adjusted EBITDA based on GAAP Net income attributable to Atleos plus interest expense, net; plus income tax expense (benefit); plus depreciation and amortization; plus acquisition-related costs; plus pension mark-to-market adjustments, pension settlements, pension curtailments and pension special termination benefits; plus separation-related costs; plus transformation and restructuring charges (which includes integration, severance and other exit and disposal costs); plus stock-based compensation expense; plus other (expense) income items. These adjustments are considered non-operational or non-recurring in nature and are excluded from the Adjusted EBITDA metric utilized by our chief operating decision maker ("CODM") in evaluating segment

performance and are separately delineated to reconcile back to total reported income attributable to Atleos. This format is useful to investors because it allows analysis and comparability of operating trends. It also includes the same information that is used by Atleos management to make decisions regarding our segments and to assess our financial performance.

*Special Item Related to Russia.* The war in Eastern Europe and related sanctions imposed on Russia and related actors by the United States and other jurisdictions required us to commence the orderly wind down of our operations in Russia in the first quarter of 2022. We have ceased operations in Russia and are in the process of dissolving our only subsidiary in Russia. As a result, for the periods presented in this document, our presentation of segment adjusted revenue, cost of revenue, selling, general and administrative expenses, research and development expenses, income from operations, and Adjusted EBITDA exclude the immaterial impact of our operating results in Russia, as well as the impact of impairments taken to write down the carrying value of assets and liabilities, severance charges, and the assessment of collectability on revenue recognition. We consider this to be a non-recurring special item and management reviewed the results of its business segments excluding these impacts.

Atleos' definitions and calculations of these non-GAAP measures may differ from similarly-titled measures reported by other companies and cannot, therefore, be compared with similarly-titled measures of other companies. These non-GAAP measures should not be considered as substitutes for, or superior to, results determined in accordance with GAAP.
